

# CARBOGRAPH PACKING C8100

## Composition

PAN carbon yarns with graphite powder, MoS2 lubricants.

#### **Characteristics**

The compression packing C8100 is braided with pure carbon PAN yarns. This material gives to the packing a considerable flexibility and elasticity when installed for sealing the pumps. This packing is impregnated with high temperature lubricants loaded with graphite powder and MoS2 to reduce the friction.

#### **Applications**

The C8100 packing is specific for high temperature dynamic applications of fluids non oxidizing and compatible with the PAN yarns.

#### Tech Data

	P bar	lbf/in2	Vm/S	f/pm	рН	т°С	T°F	
F	100	1500	2	400	2 ÷ 12	-60 ÷ 500	20 - 040	
<b>®</b>	40	600	25	5000	2 + 12		-80 ÷ 940	

- Never use the product to the maximum temperature and pressure associated. Consult the manufacturer for further information
- The peak temperature can be sustained for short exposures
- Graphite and carbon cannot be used with oxidizing fluids

## Carbograph Packing C8100

C8100 is a special compression packing for dynamic applications. Thanks to the carbon yarns it has a great recovery and wear resistance guaranteeing the effectiveness of the sealing for a long time.
