

Composition

egPTFE yarns with encapsulated graphite without further lubrication (egPTFE) by $\mathsf{GORE} \ensuremath{\$}$

Characteristics

The packing style GF4770 is made with 100% of pure GORE® yarns. This yarn without lubricant guarantees at the same time great resistance to the extrusion and reduced wear thanks to its low coefficient of friction. The packing style GF4770 is a universal sealing, suitable for both valves and pumps, it is strongly recommended for high pressure reciprocating pumps with huge head. The packing style GF4770 has great performance guaranteeing safety and long service life.

Applications

The packing GF4770 is very versatile and can be used both on the valves and on the reciprocating pumps, for all services compatible with PTFE and graphite.

Tech Data

| | P bar | lbf/in2 | Vm/S | f/pm | рН | Τ°C | T°F | |
|----------|-------|---------|------|------|------|------------|------------|--|
| ı. | 500 | 7500 | 1 | 200 | | | | |
| F | 800 | 12000 | 3 | 600 | 0÷14 | -200 ÷ 280 | -330 ÷ 540 | |
| 6 | 30 | 450 | 8 | 1600 | | | | |

Never use the product to the maximum temperature and pressure associated. Consult the manufacturer for further information
The peak temperature can be sustained for short exposures

• Graphite and carbon cannot be used with oxidizing fluids

PTFE Packing GF4770

The family of the PTFE articles include a wide range of braided packings that can cover all applications that require the use of this material.The PTFE yarn is commonly used in gland sealing systems, both in static and dynamic applications, thanks to the properties of this material, which ensures efficient and reliable sealing that can cover almost the entire pH range. The packings are available in both dry and lubricated configuration, in combination with other fibers such as aramid or with a rubber core.

The information in this publication, as well as any additional information provided to users, is based on experience and is shared to the best of our current knowledge. However, due to numerous factors beyond our knowledge and control that may affect the use of these products, no warranties are provided or implied regarding this information. The operating limits presented in this publication do not imply that these values can be applied simultaneously. Do not use the product at the maximum temperature and pressure values simultaneously. The maximum temperature is suitable only for short-term exposure under specific conditions. Specifications are subject to change without prior notice. The picture in the DS may not accurately depict the exact color and/or markings of the product.
