

## Composition

Synthetic yarns Colloidal graphite Lubricant silicon free

### **Characteristics**

The compression packing N2109 has been developed for the purpose applications with a very competitive price. Made with synthetic yarns, the packing is impregnated with graphite powder and lubricated with inert lubricant silicon free for high temperatures. Suitable for purpose applications with weak industrial fluids and gases.

### **Applications**

Compression packing for purpose applications

### **Tech Data**

Never use the product to the maximum temperature and pressure associated. Consult the manufacturer for further information
The peak temperature can be sustained for short exposures

# Synthetic Packing N2109

The compression packing N2109 has been developed for the purpose applications with a very competitive price. Made with synthetic yarns, the packing is impregnated with graphite powder and lubricated with inert lubricant silicon free for high temperatures.

The information in this publication, as well as any additional information provided to users, is based on experience and is shared to the best of our current knowledge. However, due to numerous factors beyond our knowledge and control that may affect the use of these products, no warranties are provided or implied regarding this information. The operating limits presented in this publication do not imply that these values can be applied simultaneously. Do not use the product at the maximum temperature and pressure values simultaneously. The maximum temperature is suitable only for short-term exposure under specific conditions. Specifications are subject to change without prior notice. The picture in the DS may not accurately depict the exact color and/or markings of the product.
